

The Money and The Banana

Write a recipe, that if followed it will allows the monkey to get the banana regardless of his and her location.

Here are some some recipe snippets, that may help you. You are free to invent your own, but they should be understandable and concise.

Movement:

- goLeft, goRight, goTop, goDown, goBack

Condition:

- Can not Move.
- Banana found
- <Condition> or <Condition>

Control:

- <Movement> until <Condition>
- <Movement> until <Condition> then <Control>
- <Movement> until <Condition> then <Movement>
- Repeat <control>
- Alternate <control>, <control>

Possible Solution:

goTop until you can not then goLeft until you can not

Alternate:

(goRight until you can not or Banana found then goDown)

,
(goLeft until you can not or Banana found then goDown)
